

Daily Management in Public Sector

PICTURES BEFORE

Poor workplace organisation

Incorrect team dimensions

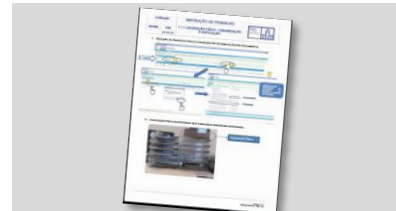

PICTURES AFTER

Team meetings with visual management

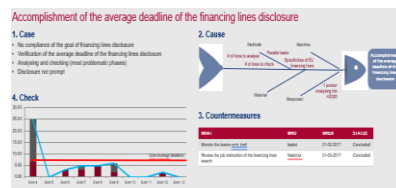

Task Standardisation

Workplace organisation

Structured Problem Solving

Problem

- Lack of management by objectives (KPIs)
- Lack of organisation of physical spaces, which limits productivity
- Difficulty in standardizing knowledge in Teams and effectively train new employees

Root causes

- Teams without autonomy in process maintenance and improvement
- Lack of proactivity in Processes Improvement
- Weak culture of continuous improvement and lack of routines
- Suboptimal number of team members in each team, contributing to poor coordination of teamwork

Solution approach

- Daily Team Meetings : supported by team boards with KPIs, Work Planning, Priorities Definition and Improvement Cycle
- Digital and Physical workplace organisation to boost productivity, improve process transparency and create a better working environment
- Office Standard Work and Structured problem solving to improve process efficiency and automate procedures, facilitating employee training – over 100 tasks standardised
- Team Development Programme to roll-out implementation to all areas

Benefits
